

ELECTRICAL SYSTEMS OF CALIFORNIA

SUPERIOR SERVICE SINCE 1986

“ Electrical Systems of California has consistently provided professional and reliable service to us. We appreciate their ‘can-do’ attitude, and are grateful for their assistance with several emergency situations. ”

Cathy Hamilton, The Voit Companies

For more than 20 years, Electrical Systems of California has been providing quality, affordable lighting and power services to customers throughout Northern California. These customers include:

- ✦ Property Managers
- ✦ Industrial Plant Operators
- ✦ Commercial Manufacturers
- ✦ General Contractors
- ✦ Energy and Environmental Designers

Our highly-trained electrical specialists take pride in delivering superior service to our customers no matter what the size or scope of the project — from highly technical industrial machines, motors and equipment, to less complex jobs and ongoing lighting maintenance.

Our Pledge

Electrical Systems of California was built on a foundation of trust, integrity, service, quality, and safety. Our pledge is to instill these values in every project and in all of our services, which include:

- ✦ Fast response to routine and emergency service calls
- ✦ Full-service electrical upgrades
- ✦ Quality lighting maintenance indoors and outdoor pole lights
- ✦ Consultation on energy efficiency for sustainable or “green” energy consumption
- ✦ Quality maintenance programs for re-lamping and cleaning service
- ✦ Innovative technology to track all services to anticipate future needs

ELECTRICAL SYSTEMS OF CALIFORNIA

SUPERIOR SERVICE SINCE 1986

“Electrical Systems of California performs their work quickly, effectively and ahead of schedule. They are an outstanding company.”

A.J. Kavanas, Seven-Up Bottling Co.

Green-friendly

Long before the green revolution hit the building industry, Electrical Systems of California operated as a green business — and we're on a mission to help our customers do the same.

Commercial and industrial buildings consume about 40 percent of the energy used in the U.S. It is our goal to help these building owners reduce this number by incorporating green into their businesses, projects, and entire corporate culture.

Our compassion and commitment toward a green-friendly environment are integrated in all of our energy-efficient products and services, including:

- ✦ Energy-efficient lamps and ballasts
- ✦ LED installation decorative & seasonal
- ✦ Motion control systems
- ✦ Lamp disposal certification
- ✦ Standard high-efficiency fluorescent bulbs
- ✦ Recycled paper/photovoltaics
- ✦ T5 fluorescent bulbs
- ✦ Energy-management system
- ✦ Green energy management

Expect the Best

When you hire Electrical Systems of California, you're guaranteed superior lighting and power products and materials that have been tried, tested and quality-approved by our experts.

It is the quality and value of these products and services that contribute to our long-term relationships with our customers — and assures them the job will get done right, on time and within budget:

- ✦ Lamp/Ballast Sales and Service
- ✦ Light Level Compliance Reports
- ✦ Safety & Security Upgrades
- ✦ General & Group Maintenance
- ✦ Backup Light Compliance Reports
- ✦ Occupancy Sensors
- ✦ High Efficiency Lighting Technology
- ✦ Dedicated Circuit
- ✦ Power Quality Testing
- ✦ Service Upgrades
- ✦ New Receptacles
- ✦ Sub-Meter Installation
- ✦ UPS Protection
- ✦ Thermotesting
